

The Charleston Catholic School 2024 Summer Reading List Rising Third Grade

CCS encourages students to explore new worlds through books this summer. Reading will help keep skills sharp for next year and will help develop an appreciation for books. The Public Library is a wonderful source for stories and books that students can explore. Students can also participate in their summer reading program. Daily reading, especially from a variety of materials, is a healthy habit for a lifetime.

Rising third graders are asked to read a total of 3 books using the guide below: fiction books; fairy tales, folk tales or legends; biographies; science books; history books. Choose your books from the list below.

Keep a record of what you read and turn it in the first week of school. Happy Reading!
